

# Kick-start Easter Mini Boogie

Billy Payn and Dave Lewis are running the Easter Mini Boogie again this year at Langar Airfield. Last year was a complete success so we will be following the same format again.

We will start off as two groups (max 15way) doing a mixture of Boogie, 16way type block moves and Drill Dives. You will be encouraged to try different slots both in the formation and for exit (Floating and Diving etc.), during the single aircraft stuff.

If we have the weather towards the end of each day then we are going to merge the two groups for formation aircraft jumps max 30-way. (TBC)

The weekend is not invite only and will be open to everyone that feels they are confident enough to FTP (Fly, Track and Pilot) in a 30way but may not have had the chance to prove it, yet! As we have two groups this gives us an opportunity to mix-and-match the people in order to best suit every one's needs and expectations.

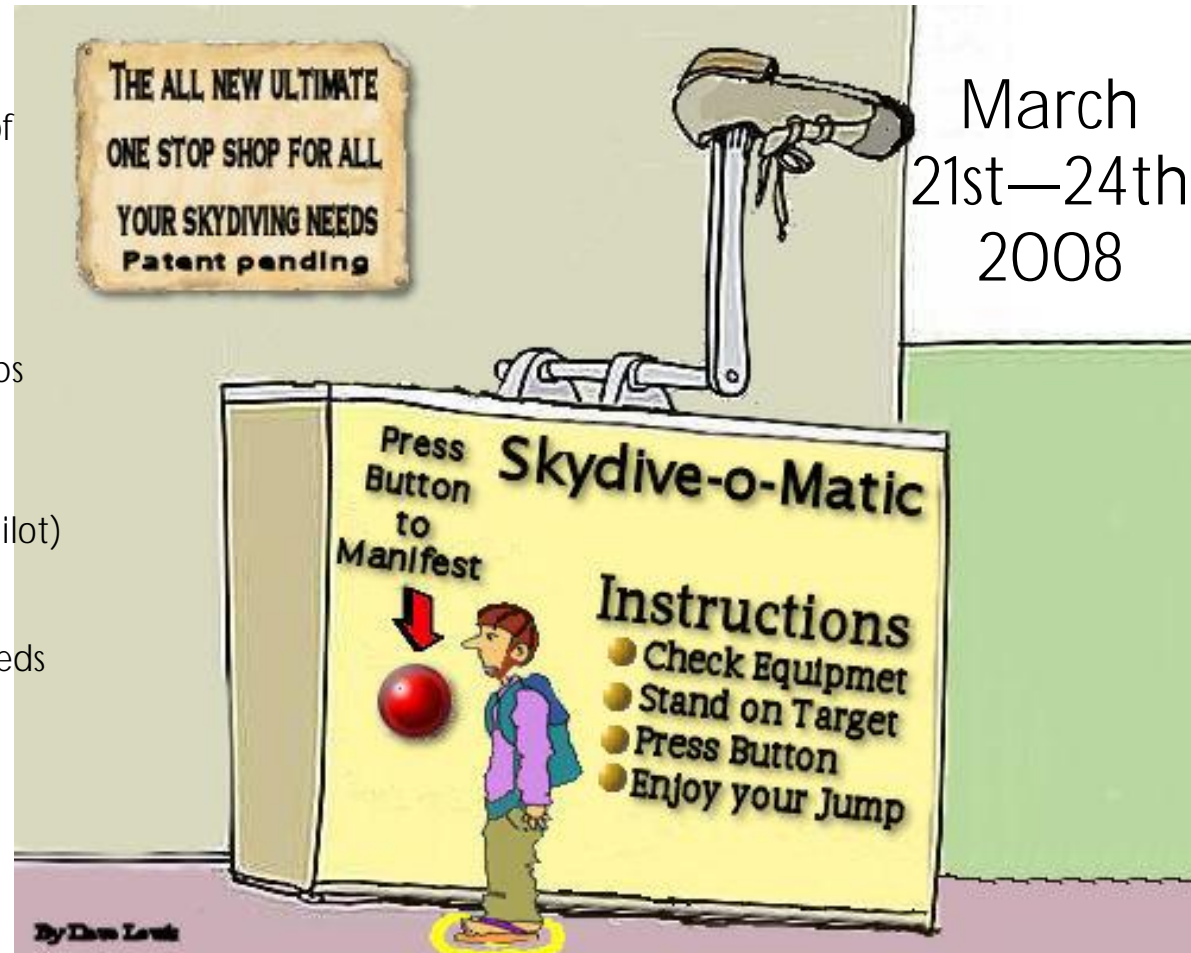

Although this is not an invitational weekend, we do strongly recommend that you pre-register email [organised@strollerweb.co.uk](mailto:organised@strollerweb.co.uk)

Registered Skydivers will be entered into the free prize draws!
